```c
/***    Program to Write and Read an Integer from a File    ***/

#include <stdio.h>

main()
{
    FILE *fptr;
    int a;

    printf("\nEnter any number: ");
    scanf("%d", &a);

    fptr = fopen("abc.txt", "w");
    putc(a, fptr);
    fclose(fptr);

    fptr = fopen("abc.txt", "r");
    a = getc(fptr);

    printf("\nCharacter: %d", a);
    getch();
}
```
