```c
        /****  Program to Print a Table of any Number  ****/

#include <stdio.h>

main()
{
    int n, mul, i;

    printf("\nEnter any no.: ");
    scanf("%d", &n);

    for(i=1; i<=10; i++)
    {
        mul = n*i;
        printf("\n\n%d\tx\t%d\t=\t%d", n, i, mul);
    }

    getch();
}
```
